Jsme součástí ochranné známky Český výrobek!

Říká se, že Češi mají „zlaté ručičky". A z minulosti máme mnoho důkazů o pravdivosti tohoto tvrzení. České vynálezy totiž doslova změnily svět. Češi jsou zkrátka národem vynalézavým, podnikavým a pracovitým. A my jsme na všechny, kteří se snaží v České republice podnikat poctivě, s láskou a mají snahu tvořit nové věci, náležitě hrdí.
Jen hrdost však vše nezmůže. Proto nesou výrobky ochrannou známku Český výrobek, jehož účelem je podpora českých podniků a firem. Cílem je informovat spotřebitele o českých produktech a zvýšit tak zájem o tyto produkty.

Jme držiteli licence Česká kvalita!

Program Česká kvalita je program podpory prodeje kvalitních výrobků a poskytování kvalitních služeb podporovaný vládou České republiky. Program je součástí Národní politiky kvality.
Hlavním cílem programu je vytvořit jednotný systém, který umožní zviditelnit důvěryhodné a nezávislé značky kvality, které jsou založené na objektivním ověřování kvality výrobků nebo služeb třetí stranou a vyloučit značky bez vypovídací schopnosti, které jsou jako informace pro spotřebitele zavádějící.
Dalším z důležitých společných pravidel všech značek, přijatých do Programu Česká kvalita, je rovněž ověřená způsobilost výrobce/poskytovatele služby k dlouhodobému dodržování stability procesů a tím i kvality jeho produktů.

Jme držiteli licence Oeko-Tex Standard 100!

Oeko-Tex® Standard 100, je celosvětový certifikační systém pro textilie, který byl vyvinut v roce 1992. Toto označení má registrováno asociace OEKO-TEX® s pobočkami v mnoha zemích po celém světě, jejíž náplní práce je kontrola zdravotní nezávadnosti textilií.
Aby textil mohl nést pečeť Oeko-Tex Standard 100, musí splnit náročná kriteria kvality, především nesmí obsahovat zdravotně závadné látky. Kritéria pro testování textilu na obsah škodlivých látek jsou založena na nejnovějších vědeckých poznatcích a jsou průběžně aktualizována. Postupy a metody jsou mezinárodně standardizovány. Zkušební vzorky jsou testovány nezávislými laboratořemi Oeko-Tex například na obsah formaldehydu, přítomnost pesticidů, těžkých kovů, chlorovaných uhlovodíků a podobně.
Oeko-Tex® Standard 100 je v současné době často vyžadován prodejci a jejich zákazníky. Všichni renomovaní výrobci textilních produktů požadavky Oeko-Tex splňují a certifikát používají.
